

# BELLINGER SYSTEMS

A SYPAQ Company

We take pride in being a 100% Australian and veteran family owned business, delivering world leading solutions to our clients locally and internationally. We provide a diverse range of Design, Manufacture and in-service support activities on Defence systems and equipment.

Bellinger offers a friendly and collaborative culture. We value building an individuals skill set and strive to create a rewarding environment for employees.

**Build skills for life.**

Bellinger has a long history of apprenticeship programs, particularly with Bellinger High School (Many of our employees graduated from Bellinger and grew up in the area). These programs offer the ability for an individual to earn while they learn, gain industry qualifications and experience working in the real world on real projects.

An apprenticeship with us will have you studying a *Certificate III in Electronics and Communications* (Trade certificate - 4 years) with the option to also undertake an *Advanced Diploma of Electronics and Communications Engineering* to further your studies.

We pay above award rates. We support the opportunity to gain other trade related tickets along the way (Forklift licence, Test+Tag training etc.).

Education/training is completely covered - No HECS or TAFE dept.

1 day off to attend TAFE plus 4 hrs per week study time during work hours, all fully paid.

Bellinger is a supportive and inclusive workplace. We believe in equal opportunity.

A career with Bellinger will have you working out of our facility in Rydalmere in Sydney. Working on design, manufacture, installation, repair and testing of Communications and Electronic Systems for our varied Defence customers around Australia.

## Values:

See something. Do something!

Achieve more together – share success.

Be Courageous – be innovative!

See the opportunity, manage the risk. Strive for excellence – master your craft.

We are family – we value honesty, respect and compassion.
